Job Experience

08.2013 - current — **Software Developer, Reason,** London, UK
Responsible mainly for iOS development. Included in the whole process of developing an app. Attended client meetings and brainstorming sessions. Had influence on design, development and testing phases. Learned about many tools (Node.js, MongoDB) and iOS frameworks (Security, CoreMotion, CoreLocation, AFNetworking, CocoaHTTPServer).

06.2013 - 08.2013 — **Technology Summer Analyst, Bank of America,** London, UK
Joined algorithmic trading team and managed to develop automation tool used by quantitative analysts. Gained great understanding in the whole electronic trading technology stack, different teams, their roles and communication between them. Witnessed real-life examples of version control, build automation and dependency management tools.

06.2012 - 09.2012 — **Technology Summer Intern (iOS team), UBS**, London, UK
Assigned with task to develop native iOS charting framework. Managed to finish it quicker than expected and started working on the same tasks as the team. Sucessfully developed iOS version of existng iPad app.
Gained knowledge about UI frameworks (Quartz, CoreAnimation), advanced profiling tools and agile approach to large-scale projects.

08.2010 - 02.2012 — **Mobile developer, SUPERMEDIA Interactive**, Warsaw, Poland
Development, testing and maintanence of applications for iOS and Android proven by examples in App Store and Google Play Store. Biggest success was iOS app for the largest radio station in Poland which became one of the most popular apps in Polish App Store.
Learned about consuming Web services, XML and UI frameworks.
